Call for Papers

Celebrating Excellence in Research

Celebrating Excellence in Research

The multidisciplinary Collaborative European Research Conference (CERC) is an annual event that takes place since 2011 when it was initiated by University partners across Europe. It brings together researchers from a wide range of disciplines in order to foster knowledge transfer, inter-disciplinary exchange and collaboration.

We invite researchers to submit extended abstracts or full papers and to attend the conference. We especially welcome early stage researchers to present new research topics.

In previous years, contributions came from computer science, biology, bioinformatics, business information systems, marketing, IT-security, civil engineering, education, psychology, multimedia, art, etc. Contributing students came from Ireland, Germany, England, Wales, Northern Ireland, Norway, France, USA, etc. Accepted contributions will be published in digital proceedings with an ISSN number. A prize for the best paper will be awarded during the conference dinner on September 11, 2020.

This year, we will invite IEEE Distinguish Lecturers to deliver Keynotes. Eight tracks have been confirmed to run in the conference:

1. Industry & Start-ups
2. Autonomous Mobility
3. Natural language processing and its applications
4. Cyber security and privacy
5. IOT and pervasive computing
6. Biomedical image processing
7. Systems biology and biomedicine
8. Big data analytics for Sustainable Society

An European research networking session will be held during the conference.

Important dates

- Submission Deadline (extended abstracts and full papers): May 31, 2020
- Notification to Authors July 9, 2020
- Submission of camera ready abstracts / papers: August 20, 2020
- Submission of during the conference selected full papers - camera ready: October 31, 2020
- Conference registration deadline: August 10, 2020
- Conference: September 10 - 12, 2020

Conference social tour

Game of Thrones and Giant's Causeway, September 12, 2020
